

INSTANT CALL MANAGEMENT

ICM - Instant Call Management is a bundle of three products (MissMobile, VMS and USSD Applications) to provide a converged solution providing the best call management system available to the subscriber.

Customer can choose a basic alert mechanism like Miss Mobile and seamlessly graduate to the USSD ICM which provides all the features of call management via an USSD menu pop-up

USSD Menu when the Call is rejected or ignored

1. SMS - "I am busy, will call you in a While"
2. SMS - "I am in a meeting, SMS Me"
3. SMS - "Call me later"
4. PLAY - pre-recorded voice
5. Forward to voice mail
6. Remind me to call back
7. Send call back request

Set the Time for SMS

- 10 Minutes
- 15 Minutes
- 30 Minutes
